SUMMARY

- Recently graduated industrial designer with a master’s degree and approximately one year of experience.
- Skilled in concept development, prototyping, 3D modeling, and iterative refinement across product development.
- Brings systems thinking, visual sensitivity, and judgment to create products balancing function, aesthetics, and manufacturability.
- Able to manage tasks carefully, respond to feedback, and maintain clear communication throughout the work process.
- Adaptable in fast-paced environments and committed to completing work accurately and responsibly.

PROFESSIONAL EXPERIENCE

SCADpro x Apple Digital Sculptor (Contract)	Jan 2026 – Mar 2026 Savannah, GA
- Selected for a competitive 3-month collaboration between SCADpro and Apple. - Supported digital sculpting, 3D form development, and surface refinement for a confidential project. - Collaborated with a multidisciplinary team to refine concepts and support visual communication.	
ALPHASTAR Technology Co., Ltd. Product Designer (Part-time)	May 2025 – Aug 2025 Savannah, GA
- Supported a confidential automation system project through layout planning, 3D modeling, and rendering. - Created presentation visuals and design materials to communicate concepts clearly. - Collaborated with stakeholders to improve proposals based on technical needs and feedback. - Assisted with iterative design development throughout the project.	
ALPHASTAR Technology Co., Ltd. Product Designer (Part-time)	Feb 2021 – Aug 2021 Beijing, China
- Supported the design of laser processing products through concept development and visual execution. - Produced 2D marking patterns, product graphics, and related design assets. - Worked with clients to identify appropriate materials and processing methods. - Updated and refined designs based on feedback until final approval.	

EDUCATION

Savannah College of Art and Design M.A. Industrial Design	June 2024 – March 2026 Savannah, GA
